## Mr. A.S. Bhargava

Chairman & Managing Director

### VISION

To increase our top line by 25% year on year by active participation of our creative people and customer support.

### ABOUT US

Gracure Pharmaceuticals Ltd. is one of the largest and fastest growing pharmaceutical companies in the world, offering end-to-end services from research to product launch with manufacturing facilities.

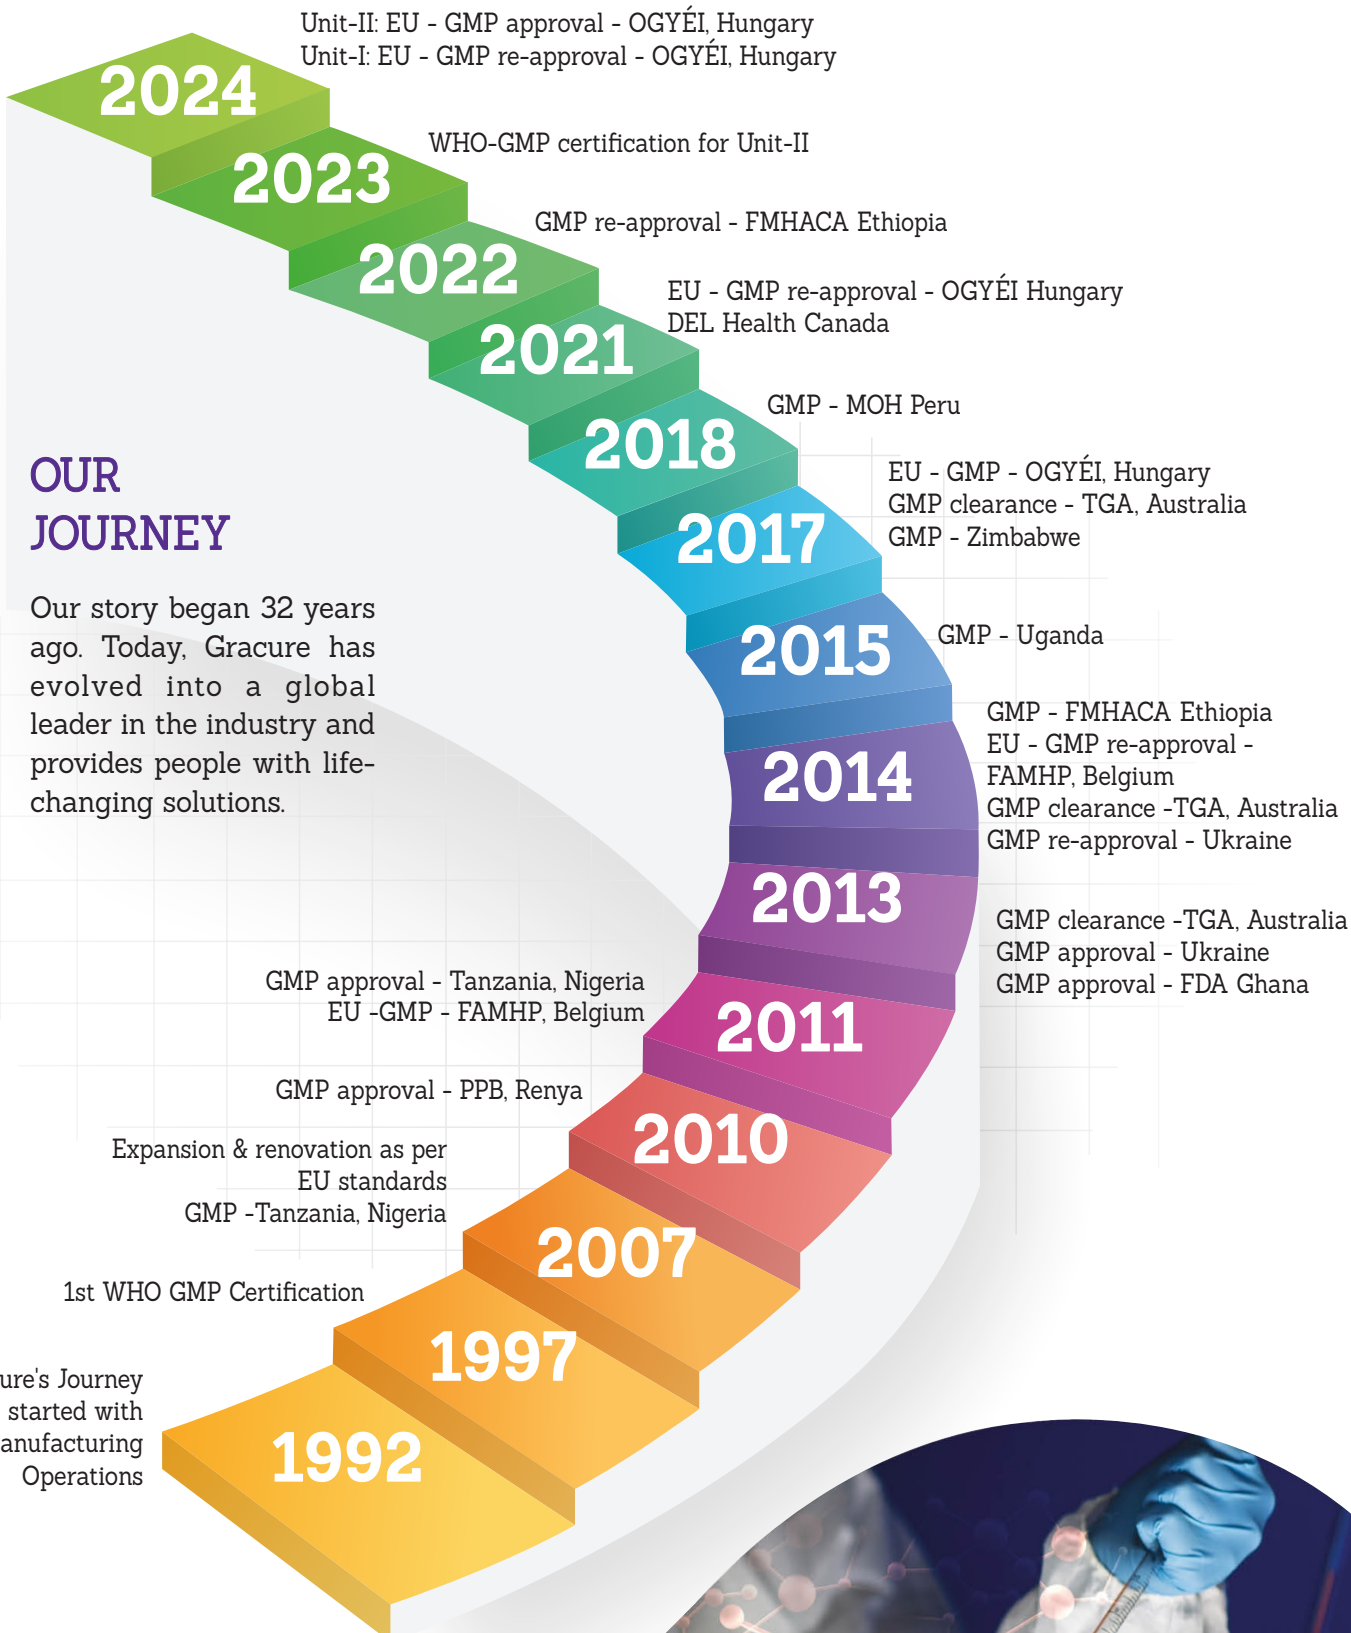

### QUALITY POLICY

We strive for total customer satisfaction through continuous improvements in processes and systems, delivering consistent quality meeting international standards.

## VALUES

Our values and standards are foundation of delivery of quality products in international markets. Our values inspire us to grow continuously and meet demanding requirements of our partners.

- ◆ We “TRUST & RESPECT” each other and work as a team
- ◆ We “ANALYZE DATA” thoroughly to make decisions which are implemented quickly
- ◆ We always “DELIVER THE PROMISE”
- ◆ We “COMMUNICATE” openly and speedily
- ◆ We “LEARN CONTINUOUSLY” to improve quality, productivity and customer satisfaction

## OUR JOURNEY

Our story began 32 years ago. Today, Gracure has evolved into a global leader in the industry and provides people with life-changing solutions.

## MANUFACTURING FACILITY

Gracure Pharmaceuticals Limited has two state of the art manufacturing facilities, located in Bhiwadi, Rajasthan.

The manufacturing facility I is built according to International regulatory guidelines and is approved by EU GMP, TGA Australia, DEL HEALTH Canada, FDA Philippines, FMHACA Ethiopia & many others. The facility is spanned over a total area of 8,000 sq.mt.

This facility is capable of manufacturing tablets, hard gelatin capsules, oral liquids, dry powder syrups, stick packs and semi-solid external preparations in large capacities to meet ever increasing demand of the market.

The manufacturing facility II has been built to comply with regulated market standards with a total area of 3,300 sq.mt. Provided with the latest state of the art equipments, the facility is approved by EU GMP. This facility is capable of manufacturing tablets and oral liquids.

## MANUFACTURING CAPABILITIES

- ◆ Tablets – sugar coated and film coated
- ◆ Non sterile ointment for local applications
- ◆ Oral Liquids – Bottles & Stick Packs
- ◆ Hard Gelatin Capsules
- ◆ Dry Powder Syrups - Bottles & Stick Packs

Project & Regulatory Support

Stability Studies As per ICH Guidelines

Pilot Plant / Scale-Up Production

## BUSINESS MODELS

Gracure Pharmaceuticals has a strong business and operational excellence for contract development & manufacturing capabilities and quick project turn around time making us the partner of choice for our esteemed stakeholders globally.

We understand the need of our global business partners and strive to deliver the best value to them. We offer cost-effective alternatives to our potential partners who are interested in developing, manufacturing & commercializing their generic products.

### Contract Development

Our CDMO model offers quality generics developed against internationally accepted RLDs to our partners.

### Contract Manufacturing

Our CMO model is focused on entering into long term supply agreements through technology transfers.

### Out Licensing

With Gracure's in-house R&D capabilities, we strive to build a strong pipeline & portfolio of products for out licensing of dossiers.

***Our passion to science is a commitment to better society.***
